The Grey Coach Lines express terminal in Toronto is being swamped by a record volume of business because of the rail strike. The company which handies parcel express for a number of bus lines at the terminal urged customers expecting parcels to come in and pick them up. Normally customers are informed by phone of a shipment arrival but increased volume has made normal procedures inconsulties. THE WEATHER

NEW YORK (Reuter) — The sughest narcetics law in the more than the control of the control finited States goes into effect oday in New York state. The controversial law-pro-ossed and pushed through the tepublican dominated state les-slature by Gov. Nelson Rock-feller—provides for life sen-ences, in some cases man-natory, for certain types of gel-nies and long prison terms for thers.

### Victory At Last

Latts jubilantly amothers their pitcher, John Masterson, after their 8-8 win over Melmos in the seventh and deciding game of the South Hastings Baschall League finals. It was the first championality for Latts size finals. The champe did it the hard way as they came back from a 3-1 deficit in the series to win 4-5.

Beliertille Quinte Help Fund Rover's goalie, Gary Donovan, dives to make a safe against Present in their Kingston and District Soccer League game. Donovan proved to be a key player in the Rovers 7-3 visitory as the bebed Prescut of several goals. On this one Ray Forteous was the victim of the tells when the helbelf d kick for the bottom right-hand corner of the met.

If you were in Canada by November 30, 1972, and have remained here since, as a visitor or without legal status, these are the things you gain make our country your country.

You won't be penalized because you entered or remained in Canada illegally.

You gain the opportunity to apply during a period of relaxed rules. You could qualify to become a landed immigrant if you meet any one of the following criteria—if you have a job or the prospect of a job—if you have a close family relationships in Canada—if yi you have a close family relationships in Canada—if yi you have a close family relationships in Canada—if yi you have a close family relationships in Canada—if you have a close family relationships in Canada—if you can present again yo ther evidence that you can adapt to life in Canada.

If you don't make it, even under the easy rules, you retain your important right to appeal the decision to an independent appeal board.

If you make it, you will eventually have the right to apply for Canadian citizenship, which gives you the vote.

Once you become a citizen, you may travel throughout the world on a Canadian passport.

As soon as you are landed, you may claim all the rights of a permanent Canadian resident, and will have every chance to work towards better job opportunities.

You gain freedom from the constant fear of discover and need no longer look over your shoulder every you go, or think twice about everything you do.

You gain the opportunity to participate fully in the life of the country.

These are the things you lose if you don't apply for landed migrant status before midnight, October 15, 1973.

You will lose forever the opportunity to become a landed immigrant by applying from within Canada

You lose the right to appeal a future deportation order to an independent appeal board.

You may lose the chance of coming back to Canada if you visit your homeland again. Which means that you might have seen your friends and relatives in Canada for the last time.

You will never have the right to vote in Canada.

You may lose chances for job advancement, because you can't take the risk that someone will find out about you.

You may be exploited by unscrupulous employers, and kept at an unfair wage level because you can't afford to complain.

You lose your peace of mind, because after midnight, October 15, 1973, you will again be subject to prosecution if you entered or remained in Canada' illegally.

You lose the opportunities that should be open to all in this rich and growing country.

We want you to have all these things. Until midnight, October 15, we're going to make it easy for you to make our country your country.

For further information, phone, write, or visit your nearest Canada Immigration Centre, or, if there isn't one near you, your nearest Canada Manpower Centre. (Services given by Canadian Immigration Officers are free.)

Canada Immigration Centres are open to receive applications weekdays from 8:00 am to 8:00 pm and Saturdays from 9:00 am to 5:00 pm, and from 8:00 am to midnight Monday, October 15.

### Royal Ontario Museum Comes to Picton

County of the state of

A museumobile carrying geological treasures from the Royal, Ontario Museum will be in Picton from September 7 to 9. The vehicle is part of a scheme to bring the museum to the people of Ontario and it will relate the rocks to the

history of Ontario for the last two billion years.
For most of its history, Ontario remained in a deep freeze or, under the sea, periods whose history is written in the rocks exhibited in the museumodite.

ANNOUNCING DO-IT-YOURSELF

# Your Local Initiatives Program is even more local.

Thisyear, \$83 million is going to be invested in helping people help themselves. Only this year the emphasis to on helping people help themselves and their community.

If yours is a typical community, we're putting the "local" into Local Initia Advisory Group, or by having L.I.P. staff consult with already established groups. So now you help decide which projects will contribute most to everybody.

On the Constituency Advisory Group will sit a good representation from the community, including people active in

community affairs, people from local-go emment and social agencies, and L.I.P. sponsors from last year, all suggested by

your M.P. Your project could have up to \$75,000 to work with, if your idea is a highly creative and innovative one, because next to "local;" this year's L.I.P. stresses imagination most.

Now for the rules. To qualify for L.I.P. funds, your project must create not less than 15 man-months of employment. Workers with the skills required for your project must be available within your community. Project sponsors must hire all employees through Canada Manpower Centres. Deadline for applications is October 15th, 1973, though early submissions could result in projects starting as early as December 1st. Projects may be funded for up to six months.

There's Do-it-Yourself Business L.I.P., too, for companies which want to provide facilities or services for their communities. Projects are not to be related to business operations, and must create additional jobs.

So make a do-it-yourself job. And help your community make a lot of do-ityourself jobs.

All it takes is one good idea.

Applications available now at your nearest Canada Manpower Centre.

He said all employees sent Sable Island are saized no the walk on the grass which bind the sand dunes together. They are also briefed on the locations of seat breedin grounds and bird nesting sikes.

The precautions are necessarbecause with up to 90 people of the island "they could upset reasonably delicate balance on nature."

Mr. Walker said that 12,00 foot of snow fences were

erected between the dunes las fall as an experiment to stabllize the sands.

The experiment was only partially successful because not althe fences were properly posiloued and horses had use

but he said the sand had started to fill in the fences as pinned.

Dr. MacLaren said the island

The horses have been on the island since 1783, he said. With the hand of man removed from their breeding, the horses have reverted to a more primitive stock.

Weak borses die in the winter, he said. Last year, about 100 died, leaving 200 to 250 in the self-regulated population. He said Sable Island is the only breeding ground of the Ipswich sparrow, and the future of the hird depends on the continued existence of the island. §

#### Care For Pets

The recent visit of Dr. Kenneth Easton the Ontario Humane Society's travelling veterinarian, has served to place much-need

We were reminded of a Belgian sheep We were reminded of a Belgian sheep dog seen around thom on occasions. Its own-er told us the animal's indigenous name too, but it had an unfamiliar ring and, not wist-ing to appear stupid, we settled for the sheep dog iag. A big shagy canine, with an aristocratic air, it made us think of Ker-

an aristocratic air, it made us tunin or aver-y Blues in Ireland.

The owner, noting it was a common enough breed in Toronto, indicated the warm weather bothered the dog as much as it does people. Most of us are familiar with pictures of soo animals soaking themselves in the nearest water outlet. Anyway it has been allergy time and our abeep dog friend had been to the vet for an eye infection and you cannot be much more human than that.

tion and you cannot be much more muses.

### Toronto Trends

Stories about Toronto airport's Termin-al 2—assembly point for Air Canada flights—are becoming as common as Newlie jokes, except that for the most part they are no jokes. Time enough maybe to look back and laugh at them inter, but for those concern-ed us they shomen, frustration and exa-

laugh at them later, but for those concern-ce, as they happen, frustration and exas-persition too often are the norm.

Our own experience there in recent days
was no more than mildly disconcerting, but
the does illustrate the point. We arrived at
1150 am. to meet an Air Canneda charter
flight from Britisha, to discover the arrival
time had been put back until 4.50 pm Finding in the lime was not too difficult, since

### More Dying on Roads

The accident toll would appear to be ris-ing. This is our feeling from the prolifera-tion of new is propris of accidents in recent times. And we have continuation from the Shaw and Begg Insurance Group in Toronto, which quotes statistics released by the On-tario Ministry of Transportation and Com-munications.

tario Ministry 01 4 many munications.

Total coilisions during 1972 increased by 19 per cent over the previous year while fatalities increased by nine per cent. Injuries increased by 12 per cent and estimated property damage increased by 37

per cent.

In a category all by itself, among these statistics, are motorcycle deaths. They increased by 265 per cells.

As we pointed our regently, the accident death toil in Ontario and Canada as a whole, is a continuing tragedy without end.

The figures show the situation is getting worse rather than better. If the Government has any plans for reducing the following the continuing traged and the continuing traged and the continuing traged and the continuing the co The nights worse rather than better. If the Government has any plans for reducing the toll, say by making seat belt wear compulsary, as in Australia (and with significant results there) we have yet to hear of them.

# How to save energy and cut your fuel costs.

Regardless of the heating system or type of fuel involved, good insulation is the key to improved home comfort with lower fuel consumption. In any building, heat escapes through ceilings and walls, Insulation reduces that loss considerably.

If you're planning to build a new home-or modernize an existing one—make proper insulation a must. The Ontario Electrical League requirements provide your best guide, and your Hydro will be pleased to give you any Information you need on the subject.

### The Intellinencer Measures Likely Short-lived

### Landlords and Law

High food cost headlines might have current attention of most consumers, Belleville's Citizens' Bureau can attest he fact that rental relationships are of meern to a lizeable segment of the

About one in ten cases handled by the LIP-funded Bureau involves landlov-lenant differences. Fleld worker Bert Gerling, who, with his coborts, has fielded complaints dealing with everything from faise teeth to finance companies, blames "ignorance — on both sides — of the Landlord and Tenant Act" for most of the rental hassles the Bureau handles.

There are some other interesting and le-known aspects of the Act which bear

point to Jan. 1, 1970, landlords could give a tenant's furniture if he was 15 days an arreast of his walt. Under the revised act, landlord has no such rights, no matter soor taxty revised, not have the soor taxty revised, the soor taxty revised to the

out a court order. But first, the tenant roust be properly served with notice of termination of his lesse and, if he refuses to vanish the premises, he must be given 15 days' notice of a court hearing.

Landdords or their agents — superintendents — may find themselves charged with trepassing if they enter a tenant's Comileic without his consent. The outboard or the completion are rengencies, or dynamic when the tenant has refused as the constitution of the completion are remembered. The completion is the tenant has refused as the completion are remembered to the constitution of the completion and the constitution of the completion are remembered.

writen notice of such a visit.

Anaging apartment locks without the tenant's consent could cost a landlord a fine as high as \$1,000, as could preventing political canvasses in his building. Perviously, apartment owners could see to it that only the party of their choice got to pester, item and the property of their choice got to pester, item and the property of their choice got to pester, item and the property of their choice got to pester, item and the property of their choice got to pester, item and the property of their choice got to pester, item and the property of their choice got to pester, item and the property of their choice got to pester, item and the property of their choice got to pester, item and the property of

ants.

Before the 1970 Act revision, tenants were responsible for all repairs, with the exception of reasonable wear and tear. In fact, if an apartment building burned down, landlords could still extract rent from their transits.

The onus is now on the landlord to keep the bindleng in a good state of repair and the brann's only responsibility is ordinary cleanliness and the prevention of wifful damage by himself, his family, or his guests — "good housekeeping", as Mr. Gerling puts it.

The good nousecepting, as as a Sering plus A tensal rang veen withhold a portion of his reat for "urgent" repairs not carried out at the landford's initiative.

Another area of containon the Citizena' Bureau finds is the disappositising between tensants and, boarders of Regoners.

THE INTELLIGENCER, TUESDAY, SEPTEMBER 11, 1923

Family Doctors Urged To Resume House Calls

# If you were in Canada by November 30, 1972, and have remained here since, as a visitor or without legal status, these are the things you gain if you make our country your country.

You won't be penalized because you entered or remained in Canada illegally.

You gain the opportunity to apply during a period of relaxed rules. You could qualify to become a landed immigrant if you meet any one of the following criteria—if you have a job or the prospect of a job—if you have a job or the prospect of a job—if you have a dose family relationships in Granda—if you have made an effort to improve your qualifications—or, if you can present any other evidenceshiat you can adapt to life in Canada.

If you don't make it, even under the easy rules, you retain your important right to appeal the decision to an independent appeal board.

If you make it, you will eventually have the right to apply for Canadian citizenship, which gives you the vote.

Once you become a citizen, you may travel throughout the world on a Canadian passport.

As soon as you are landed, you may daim all the rights of a permanent Canadian resident, and will have every chance to work towards better job opportunities.

You gain freedom from the constant fear of discovery, and need no longer look over your shoulder everywhe you go, or think twice about everything you do.

You gain the opportunity to participate fully in the life of the country.

# These are the things you lose if you don't apply for landed migrant status before midnight, October 15, 1973.

You will lose forever the opportunity to become a landed immigrant by applying from within Canada.

You lose the right to appeal a future deportation order to an independent appeal board.

You may lose the chance of coming back to Canada if you visit your homeland again. Which means that you might have seen your friends and relatives in Canada for the last time.

You will never have the right to vote in Canada.

You may lose chances for job advancement, because you can't take the risk that someone will find out about you.

You may be exploited by unscrupulous employers, and kept at an unfair wage level because you can't afford to complain.

You lose your peace of mind, because after midnight, October 15, 1973, you will again be subject to prosecution if you entered or remained in Canada illegally.

You lose the opportunities that should be open to all in this rich and growing country.

We want you to have all these things. Until midnight, October 15, we're going to make it easy for you to make our country your country.

For further information, phone, write, or visite your nearest Canada Immigration Centre, or, if there isn't one near you, your nearest Canada Manpower Centre. (Services given by Canadian Immigration

Canada Immigration Gentres are open to receive applications uccidings from 8:00 am to 8:00 pm and Saturdays from 9:00 am to 5:00 pm, and from 8:00 am to midnight Monday, October 15.

### Inking in History

Stirling-area artist Jerry
Stapley is putting frishing
A tauches to novel consect of use throughout Hastings

to show a certary of social
development in the county.

## **Architectural Sketches Record Hastings History**

STIRLING — Pictures can speak volumes when it comes to capturing the flavor of his-

cord the county's progress in a key historic period through its architecture.

Its architecture.

The idea won federal government approval in the shape of a \$3.700 Opportunities for Youth Grant.

Now, the novel coecept is in its final phase and later this month the public will have a chance to judge with have a chance to judge with have a chance to judge with history.

Jerry, 23 - year - old Stir-fing-area artis, is now as-seembling a display of pen-nend-ink sketches, for public showing. With historical octes by Doris - a Belevillian now teaching high school in Gra-venhurst - the exhibit is a handy perpective of local his-tory tied to representative buildings throughout the coun-ty.

They include churches, homes, mills and stores — 28 skeeches which were the final choice of the two young researchers - creators as representative of various areas in the county. They were selected from nearly 170 architectural examples viewed by the partners during weeks of travelling

### Too Few Signs

A current television commercial listing the hay fever capitals of Ontario by showing city limit signs as seen out of a passing car window recalls a nagging Belleville prob-lem

"Our greatest requests were about ac-comodation, camping, and attractions," notes chamber manager Don Sutton. "We sold every hotel and motel in Prince Edward County," he noted, in addition to directing tourists to Believille and Hastings County

with this sort of hospitality to tourists and their dollars, Belleville may become known as something more appealing than one of Ontario's hay fever hubs.

### Cooperman's Contribution

We don't know what former United Community Services director Isadore Coop-erman's financial donations were to the citys United Appeal in his three-year tenure

at that post.

But Mr. Cooperman, the centre of controversy before his resignation was accepted
by the UCS board in July, may have made
public a more crucial contribution in an expublic a more crucial controls clusive interview with Intelligencer reporter

Al Zabas.
Under the Cooperman concept, bodies behind UCS financial drives and its administrative services would be separate entities. There is, as he so rightly points out, often a great deal of difference between a good field worker and a good fund-raiser. He was a supposed to two distinct UCS divisions, working toward the same coal but with

### Ottawa's Move

OHAWAS MOVE

In contemplating the Government's of onomic controls and the whole subject of inflation, wages and costs, supply and demand, thene constant factor that emerges is the lack of unanimity of economists.

Inflaticn could blow sky high and remain just short of economic collagee, but

Intaltin could blow sky high and re-main just short of economic collapse, but the economists would still be arguing the merits and describt and reaching no con-clusions that would make any difference. The Government, for its part, moddles through with short-term, politically-orien-ted decisions of the kind we have seen in re-cent days — and goes on spending its own

cent days - and goes on spending its own substance, or raiber that of the Canadian

substance, or rather that of the Canadian tapayer, in its customary reckless fashion. The record of extravagance on the part of Government in Ottawa is legodardy, and mone gives it away, or spends it with such abandon, as the Trudeau administration—diabnous value to foreign aid.

We would be in less straits today if the Government would above some responsibility and orderlinear where the national weeth is concerned Jess in need of such control ser we now face, less in racord to such controls are went face, less in racord to such controls are went face, less in racord to such controls are went face, less in racord to such controls are went face, less in racord to such controls are went face, less in racord to such controls are well as the control of the control

In practical terms, the proposed exten-sions of Parker Street through Albert Col-lege property to Sidney St. looks good on

paper.

But the most obvious way out of a prob-lem is not always the best.

When city council, in its wisdom, went ahead with the Dundas St. West bypass, creating a dead-end on Highland Ave, its was obvious that there would be some in-convenience for molorists in that area of the city who wanted fast access to Highway 2.

Although it represents somewhat of a traffic hazard at the by-pass-Bay Bridge Road intersection, the opening to the public of a driveway through Reld's Dairy property was a gift-horse convenience to many driv-

em. Now that the city has decided that vehicles in the area should get onto Sidney St to gain access to West Dunkes, they must St to gain access to West Dunkes, they must distance between two points is a straight line, it also represents another potential safety problem for Albert College.

The problem for Albert College property just does not seem to be the property just does not seem to be the property just does not seem to be the answer. Difficulties that would arise would be similar to those experienced by golders dodging care before the Say of Quinte Country Court of the Country

If the city wants to incur the expense of a similar pedestrian walkway beneath an extended Parker Sixeet, that might be something else for Albert governors to ponder, even though it might still be an esthetic setback for their site.

Otherwise, city engineer Wilbur Pur-cell's recommendation of opening a roadway at the north end of the college property op-posite Wellington Crescent seems most feas-

Hopefully, Mr. Purcell's perseverance will act as a catalyst to solve the city-Albert College impais.

#### **Drinkers Deciving**

Canadian poet Irving Layton once ob-served he could see more drunks careening down Yonge St. in Toronto on a Salurday night than he might observe in a month in Paris.

This harboring of the view of "civilized" continental drinking habits is one that is shared by most North Americans who visit

They return with tales of the openness of consumption of alcohol use on sidewalk cafes, every day of the week, and by youngsters, with none of the apparent botsterousness that we tend to associate with drinking

Police figures indicate that the number of known drug users has skyrocketed to 8,000 from a mere 480 in 1969 when the current wave of "the trouble" broke out.

It seems that the typical tourist's im-

ression of continental consumption may ave been misguided.

European drinkers may appear civilized, then in fact they are sick.

#### Breaker Blast Cause Unknown

Cause of the circuit breaker explosion which injured a Belleviile Utilities Commission employee during the August 31 electrical storm has not yet been determined, according to PUC manager Neil Britton.

In answer to commissioners'
postions at the PUC's regular
monthly meeting Tuesday, Mr.
Britton said, "The reason for
the explosion has still not been

found."

Cameron Howard, a utility employee, sustained first degree burns to his face and third degree burns to both arms while attempting to close the open circuit breaker at the Reid Street substation. Another employee, working with Mr. Howard, was uninjured.

A least 15 per cent of down-nwn Belleville was without ower following the early norning storm.

Mr. Britton said speculation rplosions of this sort rare," he noted.

Fifth in Line

When the Reilly family gets together for a group portrait, it's not just your everyday family anapshot. For when help Danny Reilly was born five months ago, it meant five complete generations in the Reilly family. Holding Danny is this great-great grand mobber. Gettude Gist, 7th. Standing behind them is Danny's great-grandmobber, Helen Reilly, 60. Fainking them on the right is Danny's great-grandmobber, Helen Reilly, 40. Fainking them on the right is Danny's great-grandmobber, Helen Reilly, 41. And last but not least Danny's father, 22-year-of Whichart Reilly stands on the left.

IMPORTANCE OF EARLY DIAGNOSIS!

Learning disabilities have a variety of causes. Physical, chemical or men-tal. They are not all understood. Only in the past decade have they really been studied. One thing is known for sure . a child whose learning dhability is diagnosed before he starts school has the best chance of making the maximum adjustment.

## WHAT ARE THEIR NEEDS?

WHAL ARE HERR NEEDS?
Their needs are the needs of all children. The need for love. For underperiod of the the needs of all children. The need for love. For undertering reads: They need special education programs included to their

## Join Trenton Party

The entire Quinte area has just cause for joining in the celebration of Air Transport Command's 28th birthday party next Saturday at Canadian Forces Base Trenton. Since the Command's headquarters were located at the Trenton air station in

near actaion at the Trenton air station in 1959, its aircraft have been active in many roles such as delivering relief supplies, that have helped bring Canada international plaudits

plaudits.

People of the Quinte region should not just be glad of the boost to our economy CFB Trenton provides.

They have a right to be proud of the role their airborne neighbors are playing, not merely in putting Trenton on the map, but Canada on the globe.

## Right to Know

In an age of growing concern for civil rights, the public seems to be demanding one privilege in particular — the right to Kingston ratepayers are currently up in

arms about the refusal of Mayor George Speal to make public the names of persons who attended a civic dinner for Queen Elizabeth during this summer's reval visit. Since city taxpayers picked up a hefty

tab running into thousands of dollars for the event, one would think their elected chief magistrate would feel compelled to make such information as the guest list a matter of public record.

Much mightler men than Kingston Much mightler men unan amga-Mayor George Speal have found that the people's insistence on knowing how respon-sibly they are being governed can become a potent political force. Just ask Richard Nixon.

## Tread Softly

Phase 1 of the remodelling of Queen Alexandra School for use as an administration centre will cost nearly a quarter of a million dollars, the Hastings County board

Hopefully, those board employees using the building we were once told was too dang-erous to stand up under the patter of little ils' feet will bear in mind they are somewhat Heavier than the previous occupants.

Otherwise, administrators may find themselves being bussed to other branch offices.

### A Shadowy Thing

"Come The Revolution" is one of the more shopworn rallying cries of the far left. No one can say now whether such an eventuality will ever materialize, but it is as well to realize there are elements in our society working to that very end.

How well premand one one to come the control of t

It was an end to democracy in Chile,
but consider the alternative, under the slain
President Allende.

Could such a development occur in Can-ada? It is doubtful... doubtful that is, that the left would ever gain such ascendancy that it could become the government of the country, overthrow our established institutions, introduce the traditionally unproductive economics of Communism, and provoke in return a right-wing counter revolution.

Let us watch out just the same.

### City Images

Belleville has twy landmarks, as such, nothing to compare with Trenton's Mount Pilion, or the Lookout at Hallburton where the view shortly will take on that fabled, ageless prospect of autumn, or to compare with say Hamilton's "mountain."

But no matter, the city overall, with its location by the bay, its parks, its tree-fringed-acycuse, offers many a fresh aspect in the course of a day's journeying round about.

We are not sure which is the city's mather highest point, but one which affords a fairly wide expaces of view is that point of North Pront Street above the railroad tracks.

Which color TV needs fewest repairs? TV servicemen say Zenith.

### How the survey was made.

One of the largest research firms in Canada conducted this study of independent service-men's attitudes toward brands of color televimen's attitudes toward brands of color televi-sion. Telephone interviews were conducted with TV servicemen themselves during Jan-nury 1973, in major cities from costs to coast. To eliminate the factor of loyally to a single brand, the study included only shops which serviced more than one brand of TV, Survey details are a valishe on request. #### More on Pollution

The poliution of the Bay of Quinte— and hadly at that—as cited by a federal, provincial government report, continus what most of us already know but have tended to oversion or ignore. The report says major contributors to non-poliution are municipal and indust-rial wastes and agricultural runofs. Algae

growth is serious and there is an additional warning that the new Hydro generating station near Bath could further affect as already depleted fish population,

Ironically, among the recommenda-tions of this last major study of the Canadaontario-Rideau-Trent-Severn (CORTS) com-mittee, is one urging more campaites in an area accessible to "literally millions."

Shouldn't we be concentrating first on Shouldn't we be concentrating first on a major cleanup before opening tourist floodgates that could aggravate still further the existing pollution problem? Improvement of water quality is called for, but how this is to be accomplished and by whom are not spelled out.

What has the Ministry of the Environment and Minister James Audi got to say to this! Have they any recommendations as to how to go about the task of cleaning up these waters? Answers to these questions are badly needed.

#### Graveyard Desecration

A recent story from our Picton corres-ordent chronicled in some detail the woes the town's Glenwood cemetery.

Vandalism - a problem not unknown variousum — a problem not unknown to Picton — and public apathy continue to hamper the restoration and upkeep of the cemetery. Despite police vigitance grave-stones are periodically toppled and repairs and general maintenance are held up for and general n

It all adds up to an almost complete reversal of Canada's national oil policy. That 'policy, established in 1961 by the Dicfenbaker Con-servative government, split the Canadian market into two re-gions, divided by the Ottawa

mirket. Long Southern Ondario market. Long market. Long and policy or each able of the Canadian oil industry to the control of the oil companies (mostly fortiern centrolled) and at the considerable expense of Ondario energy users.

On balance, it was probably a sound pelicy. It may have created too many oil militonies, but it also led to the development of badly needed domestic oil supplies.

Small cars look better than ever!

new shape of our economy car...the 1974 Pontiac Astre.
Astre introduces the shape of the future, a new look
you'll be seeing plenty of. But for all its great styling and performance, Astre is still an economy car, priced right in there with the imports. Right on! Your Pontiac dealer is big on small. There's a

small car to fit just about any need.

Ventura, the pocket-size Pontiac. Apollo, Buick's
Iuxury compact. And, for the driver who wants all the excitement going-Firebird and GTO. Has there ever been a better time to go small?

### Looks like mid-size may now be the size

like Buick's Century Regal. "Today people"—who know what they want and refuse to compromise, will recognize the new Pontiac and Buick intermediates as their kind of cars.

The new Buick Century Regal 4-door sedan family man.

family man.

And the Wide-Track way with trim-size will become even more popular with the '74 Le Mans, While Grand Am is as different as it looks,

For 1974, the Pontiac and Buick intermediates just might make mid-size the standard size!

### Heres what's new in full-size cars!

New styling in front, new Coupe roofline, new glamour inside...as in Pontiac Parisienne Brougham. Lots of people continue to hold that full-size is the only size. Where else can you get it all, they ask, except in cars like full-size Pontiacs and Buicks.

Their position strengthens in 1974—with

magnificent new styling—with engineering refinements and improvements—and the greatest-ever choice of interior trim.

If your size is full'size; see what's happening your Pontiac-Buick ocaler's.

It's your best year yet!

#### The Human Aspect

The Watergate scandal in the United The Watergate scandal in the United States, has been shifted, mercifully, from centre stage and we find President Nixon surfacing from the morass to attend to such affairs of state as the visit of President Bhutto of Pakistan. There is still the agonng over Vice-President Agnew and alleged kickbacks when he was Governor of Mary since of Mary-land, but at least some degree of sanity and sense of proportion would appear to be re-turning to American politics.

As so happens though we tend to over-ok the human drama behind such events. We read somewhere that Watergate has we read somewhere that watergate has been a traumatic experience for the families of men like presidential aides John Ehrlich-man and Robert Haldeman. And well it

Then again, there has been the separation in recent days of former Attorney Gen-eral John Mitchell and his wife, the outspoken and eccentric Martha. One can easily imen and eccentric Martha. One can easily ima-agine the damaging influence of Watergate on their relationship, with Mr. Mitchell him-self fracing indictment. OUR CITY ON THE BAT: 1909 "A community's school are custodians of its culture as well as stepping-stones toward its growth." — Anon.

Some years ago, we spoke with a gentleman who after attending business college in Belleville, met, by chance many miles away, one, who attended business college also in Belleville, "known far and wide for its high standards. The two men became good friends, joined forces, to form a prespector business. Which business college did you attend?" for we learn in The Daily Intelligencer's special industrial sowerin number of 1909, there were two splendid business colleges.

#### Young Monarch

Sweden has a handsome new King ha former Crown Prince Carl Gustaf. He is ascending the throne at a time when Swedes have been expressing discontent with the Jovernment of Olof Palme.

Government of Olof Paine.

For the past four years Paine has headed a Social Democrat government which has
remained in gover with the aid of the Communists. His folley in this period has reflected lettls tendencies, including strong criticism of the United States role in Vietnam,
recognition of the Communist North Vietnamass and acceptance of American draft
dodgers.

Now the Palme government is stale-mated following recent elections, with three Opposition parties picking up a like number of seats. What happens next remains to be

The young King meanwhite — he is 37 — is expected to be little more than a figurabed in a country which in the not to distant future, could, conceivably, more even arriver to the left than it is unser from the first than the country and the opposition, seems to préclude such an eventuality, at least for the time being. # NOTICE TO ROLLINS CONSTRUCT

Over the past few years we have been experiencing a phen menon which, in one respect, while economically pleasing to see has on the other hand, had unpleasant side-effects. The pheno mena about which we speak, is the ever increasing numbers each year demanding new houses, together with the ever decreasing

nbers of skilled tradesmen available to us. As a result, that despite all our efforts, we have encountered a large backlog of houses

with unfinished items. Many of these understandably frustrated people have understood our problem, especially those for whom we built 2 or 3 times before, and have been very patient. To them we offer our sincerest thanks. Those of you who were promised completion by September 30th, will have every effort expended on your behalf to do so. If, due to circumstances beyond our control, a few cannot be done by that time and we need a little more time, we will be in touch with

It has been our rollicy over our many years of doing business, to issue a one year warranty to all customers. We now find in some cases, the warranty period has expired and all items are not attend ed to. To those people, we will extend our warranty period until such time as all your deficiencies are completed.

## Waiting on the Weather

World champion Jackie Stewart of Scotland, holding tarton-emblazoned helmet, looks glumly into the cockpit of his Tyrrell-Ford prior to Sun-day's Canadian Grand Prix. The cars started on heavily grooved tires after a downpour flooded

the track just before the race. Most made pit-stops, to change to slicks after the track dried. The race will not be one of the more memorable in Stewart's career. He finished fifth.

non which, in one respect, while economically pleasing to see, has on the other hand, had unpleasant side-effects. The pheno mena about which we speak, is the ever increasing numbers each year demanding new houses, together with the ever decreasing numbers of skilled tradesmen available to us. As a result, that despite all our efforts, we have encountered a large backlog of houses with unfinished items.

Many of these understandably frustrated people have understood our problem, especially those for whom we built 2 or 3 times be fore, and have been very patient. To them we offer our sincerest thanks. Those of you who were promised completion by September 30th, will have every effort expended on your behalf to do so. If, due to circumstances beyond our control, a few cannot be done by that time and we need a little more time, we will be in touch with

It has been our policy over our many years of doing business, to issue a one year warranty to all customers. We now find in some cases, the warranty period has expired and all items are not attended to. To those people, we will extend our warranty period until such time as all your deficiencies are completed.

### NOTICE TO ROLLINS CONSTRUCTION

## HOMEOWNERS!!

Over the past few years we have been experiencing a phenonenon which, in one respect, while economically pleasing to see, has on the other hand, had unpleasant side-effects. The pheno mena about which we speak, is the ever increasing numbers each year demanding new houses, together with the ever decreasing numbers of skilled tradesmen available to us. As a result, that despite all our efforts, we have encountered a large backlog of houses with unfinished items.

Many of these understandably frustrated people have understood our problem, especially those for whom we built 2 or 3 times before, and have been very patient. To them we offer our sincerest thanks. Those of you who were promised completion by September 30th, will have every effort expended on your behalf to do so. If, due to circumstances beyond our control, a few cannot be done by that time and we need a little more time, we will be in touch with

It has been our policy over our many years of doing sisiness, to issue a one year warranty to all customers. We now find in some cases, the warranty period has expired and all items are not attended to. To those people, we will extend our warranty period until such time as all your deficiencies are completed,

The Liberal strategists know this. Therefore, they deployed all possible efforts to avoid a confrontation over the foll issue between western clerates (particularly those the control of the country in order to avoid harmful defections. The problem was resolved, as we know, by means of a compromise.

### Valuable Agency

Believille's Citizens' Bureau is a demonstrably effective organization in the service of people with problems of one kind or

Whether they have been victims of narp business practices or of bureaucratic shenanigans or of the proverbial runaround, the Citizens' Bureau has provided a shelter in the storm and, frequently, has been the means of protecting individual rights.

Any community would be the better for such an organization. If there has been criticism of its methods, or of its staff whether individually or collectively, well nobody is perfect.

y is perfect.

The Citizens' Bureau is too valuable an agency to lose. It should be allowed to con tinue and if an extension of Government funding is secured, so much the better.

### People and Places

Coincidences are a concomitant of the man scene. We can all point to them in our lives ,to incidents locally or even span-ning time and space and continents, involving places, people, activities. Interesting en-counters that confirm the essential oneness and universality of mankind.

Sunday night was such an occasion for us when we encountered a doctor acquaintance from Brockville in a restaurant. He was en route home from Mosport with his

two teenage sons and daughter.

Then, driving along Front Street later, with the streets almost deserted, we saw tho ione and imposing figure of Constable Elmer Minaker on the beat. Unknown to us at the time, it was the Wellington native's final hours on duty before retiring from the force.

Reporter Brian Amaron outlined Constable Minaker's career in Monday's Intelli-gencer: orphaned at six, farm worker at the age of 12, joining the merchant marine at .14, back in Picton two years later and memories of a Canada Steamship man who treat-ed him "like a son." Service with the Hastings-Prince Edward Regiment overseas and subsequently, joining the Belleville police force in 1945

A career like many a man of his time,

but Constable Minaker invested it with qualities of strength combined with gentleess and understanding that were his very own, the product of an upbringing that had its challenges as well as its rewards.

Constable Minaker got along well with

the young people, to whom a policeman's uniform is not necessarily a welcome sight. We should think that they too will miss him as much as the rest of the citizens who. now that he is gone from the beat, feel a sense of regret. But for Constable Minaker remembered as a policeman in the finest tradition.

This statement may seem incongruous at first glance. But if one considers what happened in Hungary in 1956 and in Czechoslomakia in 1958, one cannot come to any other conclusion.

One would have to be naive to believe that the Soviet Un-ion would permit Allende's dasant to be fully-realized since this experiment would have raised questions con-cerping the philosophical basis, of Leninism.

Malxism and integral ao-cialism cannot live with de mocracy. Nogy, Dubcek and Allende are three examples, between the ideal of which all men dream and the sad reality, there exists an often unsurmountable margin.

'RCA's Accumatic' color/tint control assures you of a life-like hue and keeps it on target, automatically. The automatic chrome control stabilizes the color intensity. And the Black Matrix screen picture tube gives you more vivid color and sparkle.

Next, top notch reliability. Provided by the 100% solid state modu-lar chassis which also allowed for cooler operation.

And finally, a minimum adjusting 'RCA's' Automatic Fine Tuning (AFT) pinpoints the correct signal-electronically so that you won't have to fieldle with numerous knobs.

Flus, your new 'RCA' features — a glare-proofed tube face to dif-fuse light reflections. Power grid VHF tuner and solid state UHF tuner. Tone control.

All in handsome contemporary console with a walnut finished cab-inet. And best of all, the price. Simpsons lowest for a 26" color TV with these features.

About 34"W  $\times$  32¼" H  $\times$  18%" D. Two year warranty on picture tube. One year unlimited home service.

# Tiresome Grind Mayor Robin Jeffrey has touched the core of a real problem of our essentially cumbersome, not to say tiresome, democrat-

She told a Municipal Clerks and Treasurers meeting in Port Hope recently that no business or commercial enterprise would tolerate the time some councils spend debating

tters of minor importance. "Councils," said Mrs. Jeffrey, "must take a long hard look at the hours spent on relatively minor matters which could be delegated for determination to the perman-ent and quite often more competent staff."

## Equality And All

This is the football season and as one sewspaper's heading over some action hots, put it: Happiness in the Fall is Vic-ories on the Gridiron.

Yes, there were the boys doing their thing and on the sidelines a pert young cheerleader doing HER thing while also looking after the team mascot, a handsome

Now at the risk of being accused of heresy, but who needs cheerleaders? Especially with the likes of Billy Jean King

Get out there girls and make your own mark on the sporting scene. Perhaps you could make a case for male cheerleaders, just to even things up a bit more in the male-female stakes.

After all, the gals are making strides in all kinds of spheres. In the United States, the Aeronautical and Space Administration people are reported to be giving consideration to the training of women astronauts. The Russians, typically, have at least one, so there is a precedent. The U.S. move comes, incidentally, following discrimination charges in the women's magazine,

A colleafue, who spent some time in New Zealand, recalls covering a soccer match, while on a neighboring pitch a couple of girls 'teams were playing field hockey. The ground was soggy and the girls were getting pretty muddy themselves and enjoying it.

# Now internationally acclaimed for brewing excellence

Monde Selection - 1973

In this year's international competition with 85 of the world's best beers from 60 different brewers. Oktoberfest was internationally acclaimed for its taste and quality.

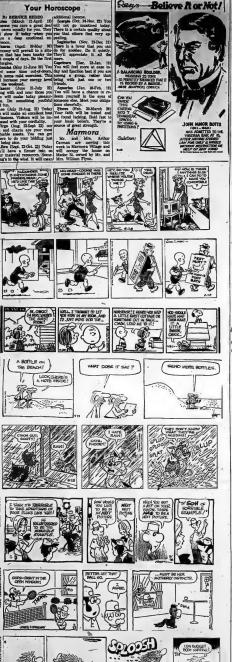

International recognition like this doesn't come easily. Neither does a beer like Oktoberfest.

Oktoberfest is brewed according to the secret time-honoured recipe of the Heisz family with 100% Bavarian hops to give you real Bavarian flavour. Yet Oktoberfest is brewed right here in Ontario.

Try the Bavarian taste and flavour of Oktoberfest. Judge it for yourself.

At the same price as ordinary beers.

## Take a Rest, for Safety

Tests coducted in the U.S. have come out with some facts on how a motorist's ability to drive is impaired by long stretches behind the wheel.

If there is a blow the driver regains control, the car will swerve three times as far as when he is fresh and

Tests were made in a Cornell Aeronautical Laboratory (CAL) Inc. simulator in Buffalo, and are being followed up by over-the-road driving in actual whicles. Both sets of tests are for the U.S. Department, of

#### Give Tires a Break

If you will be using a trailer, camper or motor home be sure to check the weight you are putting on your tires. Surveys show about 20 per cent of all recreation vehicles are ex-ceeding the maximum loads their tires should carry.

You can check with your tire dealer, your weblice owner's

manual or your dealer to determine maximum tire load. Then have your vehicle weighed, fully loaded, on a public scale.

A vehicle with overloaded tires will handle poorly and in case of a blowout control problems will greatly increase the chance of a serious as

# Three timely reasons why <u>your</u> car should be tuned regularly.

#### To save gasoline.

With the increasing need to protect energy resources, it's important for us all to conserve the amount of gas we use. Yet tests have shown an untuned acr uses 8.2% more gasoline than a funed car on the average. And that's more than a gallon in every tankful.

#### To save our environment.

In recent tests and talk about auto emissions, it's become cleer that the pollution controls on our late-hodel cars are working. And it's been made just as clear that the pollution devices must be maintained and the cars tuned regularly to keep harmful emissions down.

# To save yourself from winter weather worries.

Other tests by Champion Spark Plug Company have shown that an untuned car is especially troublesome during winter. Cars

troublesome during winter. Cars needing tune-ups had twice as many "won't starts" as tuned cars. And the untuned cars took an average of 15% longer to start.

More gasoline. Cleaner air. Trouble-free driving. They all can be yours if you take you rair for a tune-up. Once each year or every 10,000 miles. With the spark plug brand that you can depend on. Champion.

#### Power Steering Service Easy

Actually, this is not the case. A power steering system is considerably more complicated than a non-power system. But most power steering maintenance work can be done by the average automotive service

tentatizian.

At the heart of your car's power steering system is the hydraulic pump that supplies the pressure to turn your car's wheels when you turn the steering wheel. This pump rarely breaks down, however, provided you make sure its supply of hydraulic fluid does not get too low.
